Using the Baroy online application service your clients can be registered as the initial officers and members of any company you register thus enabling them to be shown on the public register from Day 1 instead of Day 10 giving such bodies as their own bank's the ability to complete their checks and verification procedures many days earlier than is the case with using our nominees and changing them with form 288a.

To this end, this FaxBack Application Form, you will see that with just a couple of questions more than are asked by form 288a we can deal with a new company formation within 24 hours and remove entirely the need for paper forms to be used, saving a minimum of a week in getting your particulars registered.

**Companies can be formed using Baroy Secretaries as Company Secretary.**

***Note: A Name Availability Check must always be carried out prior to the submission of an application for a new company. We will do this and contact you should the name be unavailable***
